

# COVID-19 2020 Summer Safety Update

## Let's keep our campers & community safe

We will continue to update our safety practices as new insight is available (7-16-2020)

### BEFORE You Come to Camp

#### Let's Each Do Our Part

##### ► Protect Yourself & Others

- Stay home if you are sick
- Wash your hands often
- Keep your hands away from nose & mouth
- Avoid close contact with people who are sick

##### ► Expanded Employee Training

about COVID-19 and prevention measures

##### ► Added Health Checks

Before camp begins for both campers & employees

- **Complete a Health Questionnaire** within 24 hours before arriving at camp – If needed, do a follow up assessment with a healthcare professional
- Individuals at high risk of serious illness with COVID-19 should consider speaking with their doctor before attending camp

### Arriving & Leaving

#### Changes to Drop Off & Pickup

##### ► Arrival Car Line - Parents remain in car

- Periodic temperature checks of campers
- We will help campers out of the car and escort them into the building
- Campers will wash their hands immediately on entering their classroom

##### ► Leaving Car Line - Parents remain in car until we signal you

- We will escort kids from the building to the car. We will signal parents to buckle kids into seat belts or car seats

### DURING Camp

#### We'll Still Have Fun - Safely

- Camp huddles with age-appropriate info about how we work together to protect ourselves from COVID-19
- Encourage frequent handwashing – all classrooms & restrooms have sinks at child height
- Hand sanitizer will be provided when soap and water are unavailable
- Emphasize respiratory etiquette
- Temperature checks for campers, employees & visitors
- "Anyone 10 years or older has to wear a face covering..." per **an order** from the Dallas County Commissioners Court

##### ► Safe Distancing

- We've adjusted playground, classroom and gym activities
- 1-2 students per table in classrooms
- Gym will include safe distancing signs & reminders
- Healthy snacks & utensils individually wrapped
- Focus on handwashing before & after eating
- Personal nap kit for toddler campers including nap mat and bed roll\*

\*Parents must purchase bed roll and nap kit container

##### ► Our Campus

- Each classroom equipped with child-sized sink and soap
- We've put up signs to encourage important behavior
- Increased controls on who can visit campus

##### ► If Someone Gets Sick

- Anyone with fever or COVID-19 symptoms will be isolated, assessed and if appropriate sent home

*If COVID-19 suspected or confirmed, we will*

- Communicate clearly with those involved
- Coordinate with local and state health departments

### AFTER Camp

##### ► Intensified Daily Cleaning & Disinfecting

- Misting with sanitizer/disinfectant combo
- Extra focus on high activity areas & equipment

##### ► Protect Others

- Consider avoiding those who are at high risk of serious illness if they catch COVID-19

### We're Listening to the Experts

*We've enhanced the way we do safety to align with guidance from authorities and experts in COVID-19, childcare and education. Examples include the following*

- Centers for Disease Control & Prevention (CDC) [Considerations for Youth and Summer Camps](#)
- [Texas Childcare Licensing](#)
- [TEA Summer Program Operational Considerations](#)
- Texas Private School Accreditation Commission (TEPSAC)
- We follow mandates by Texas & Dallas county government officials
